🎓 EDUCATION

**Bachelor of science (Honours)
in COMPUTER SCIENCE,**
PGDAV COLLEGE - (DELHI
UNIVERSITY)

2020

Gained knowledge in the theory of computing, programming languages, database systems, networking, software engineering , artificial intelligence ,Web Technologies, computer Network, programming in C++,Data structure and Algorithm etc.

👤 PROFILE

Expert React.js / Next.js Frontend Developer with more than **1.7+ years** of practical experience building effective and eye-catching web applications. competent in creating scalable and reusable components while abiding by industry norms and best practices. strong command of **jQuery, HTML, CSS, JavaScript**, and with particular expertise in **Next.js** and **React.js**.

Using tools like **Docker for containerisation, Linux for server environments, HashiCorp Vault for secure secrets management, and Teleport for improved security in remote access**, I also provide my knowledge in DevSecOps methods. **Creating reliable API test cases** to guarantee the dependability and security of online applications is another one of my strong suits.

I am dedicated to teamwork and communication, and I concentrate on providing outstanding user experiences while incorporating DevSecOps principles to improve the security and dependability of applications.

📁 PROFESSIONAL EXPERIENCE

SKILLEDANSWERS INFOSOLUTIONS PVT. LTD.,
FRONTEND DEVELOPER 📍

07/2022 – present | Bengaluru, India

Frontend developer proficient in **React.js, Next.js, JavaScript**, and **jQuery**. I have hands-on experience utilizing these technologies to develop interactive and responsive user interfaces for web applications

Application Development & UI Review

- Developed and maintained responsive web applications using **React.js** and **Next.js**.
- Develop front-end features, components, and libraries, translating designs and wireframes into high-quality, reusable code optimized for maximum performance across various web-capable devices and browsers.
- Reviewed application requirements and interface design to ensure compatibility with existing application.

Coding And Website Improvement

- **Integrated APIs** with **Axios** to fetch and display dynamic data, ensuring seamless user experiences.
- Collaborated with designers and backend developers to transform requirements into functional **UI components**.
- Conducted thorough testing and debugging, resulting in clean and maintainable code.

Collaboration With team

- Worked closely with the team to create intuitive and visually appealing user interfaces.
- Implemented responsive design principles, ensuring cross-browser compatibility and mobile-friendliness.
- Collaborated with backend developers to integrate **frontend components with server-side logic**.

📁 PROJECTS

1. TOUNZ, React.js based web app for pets (holding all information in pet's tag) - Dubai 📍

- Developed a user-friendly pet details application using React.js.
- Complete UI based on material-ui .
- Implemented a dynamic and interactive interface to showcase pet profiles, including their images, descriptions, and Missing status.
- Utilized React components to create reusable and modular UI elements for displaying pet details .

Higher Secondary (12th), CBSE

Percentage-86.8%

Secondary, CBSE

2013

CGPA-8.4

TESTING TOOLS

POSTMAN, Api Testing Tool

The Postman tool is primarily categorized as an API development and testing tool. It allows developers to design, build, and test APIs by providing a user-friendly interface to send HTTP requests, analyze responses.

OBJECTIVE

Seeking to leverage my strong proficiency in HTML, CSS, and JavaScript, along with my experience in modern frontend frameworks like React.js and Next.js, to contribute to a dynamic development team. Dedicated to delivering engaging and responsive web applications that provide an exceptional user experience.

COURSES WITH CERTIFICATION

MERN FULL STACK DEVELOPMENT

MERN Stack is a Javascript Stack that is used for easier and faster deployment of full-stack web applications. MERN Stack comprises of 4 technologies namely: **MongoDB, Express, React** and **Node.js**.

- Integrated with a RESTful API to fetch pet data, leveraging Axios for seamless data retrieval and updates.
- Incorporated user authentication and authorization features to allow pet owners to manage their pet profiles.
- Resolving bugs.

2. ANMOL MOBILES, A Next.js (React.js framework) based an e commerce web application. 

- Led the development of a scalable and responsive online store using Next.js.
- Integrated with a backend API to fetch and display product data, handle user authentication, and process payments using Axios.
- Implemented a comprehensive shopping cart system with features such as adding/removing items, quantity adjustments.
- Developed a responsive design to deliver a seamless shopping experience across various devices and screen sizes.
- Collaborated closely with designers and backend developers to ensure seamless integration of frontend components with backend systems.
- Direct meeting with clients for further requirements.

3. DYNAMIC PAGE CREATION, A backend dashboard where users can upload images and content. These uploads are rendered on the frontend via JavaScript's AJAX requests.

- Implemented a user interface with tab navigation to display different types of content dynamically.
- Utilized Jquery AJAX API to call the specified API endpoint and retrieve content based on the selected tab.Ajax implementation and API integration .
- Implemented event listeners to capture tab changes and trigger the API requests accordingly.Direct meeting with clients for further requirements.
- Collaborated closely with backend developers to define API endpoints and ensure proper integration.
- Conducted thorough testing to validate the functionality and performance of the application.

4. ICRESCENT- APPLE AUTHORISED RESELLER,

An E-Commerce Next.js (React.js framework) web application. 

- Led the development of a scalable and responsive online store using Next.js
- Implemented dynamic Pages and features for improved user experience.
- Integrated with a backend API to retrieve product data using Axios.
- Utilized Next.js for server-side rendering, improving initial load times and SEO performance.
- Collaborated closely with the backend team to define API endpoints and ensure smooth frontend-backend integration.

OPERATING SYSTEM AND VERSION CONTROLS

- Windows and Linux (**OS**)
- GitLab and GitHub (**VCS**)
